Section 6 - Accidental Release Measures

Keep unnecessary and unprotected personnel from entering area. Ventilate area of leak or spill and remove all sources of ignition. Wear appropriate personal protective equipment. Contain and recover liquid when possible. Small spills can be absorbed with noncombustible absorbents. Neutralize with sodium thiosulfate and flush with plenty of water.

Section 7 - Handling and Storage

Store locked up. Keep in tightly closed containers, store in cool, dry, well ventilated area. Isolate from incompatible substances. Avoid storage for long periods of time as product degrades over time. The recommended storage temperature is between 15°C and 25°C. Storage at 15°C reduces rate of decomposition.

Section 10 - Stability and Reactivity

Product reacts violently with acids releasing toxic gas. Product is unstable. Stability decreases with concentration, heat and light exposure, decrease in pH and contamination with heavy metals such as cobalt, nickel, copper and iron. After 3 month's storage at 15°C the product concentration decreases by 2%. Sodium Hypochlorite is extremely corrosive for aluminum and brass. Reacts with metals with oxygen release, with ammonia, urea, oxidizable substances, ammonium nitrate, ammonium oxalate, ammonium phosphate, ammonium acetate, ammonium carbonate, cellulose and methanol. Avoid exposure to light, heat and incompatibles.

Section 13 - Disposal Considerations

Fish Toxicity: This material is believed to be of a moderate order of toxicity based on analogous material. Biodegradation: This material is inorganic and not subject to in its original form, is considered hazardous waste according to RCRA(40 CFR 261). biodegradation. Persistence: This material is believed not to persist in the environment. Bioconcentration: This material is believed not to bioaccumulate. Other Ecological Information: This material may be harmful to aquatic life in low concentrations

Do not discharge into waterways or sewer systems without prior approval. This material, Dispose of in accordance with applicable Federal, State and Local regulations.
